**4x4 SAFARI**

Experience the natural history and cultural heritage of Grand Turk in this exciting off-road adventure by 4x4 F250s. Along the way, learn about Grand Turk's rich history and culture, as it was reputed to be the place where Christopher Columbus made his first landfall in the West Indies. You will drive to the airport to view a replica of the space capsule in which Lieutenant Colonel John Glenn splashed down in the Atlantic Ocean just off the coast of Grand Turk, followed by a visit to the island's capital city, Cockburn Town. Your driver will the skilfully navigate the 4x4 along the quaint and charismatic Front Street, which is lined with turn-of-the 20th-century Bermudian style architecture. A wealth of historical information is provided as you make your way to the town centre. Here you will view the ruins of the old salinas, which depict how salt was derived through the natural process of "solarization," and observe the remains of the windmills that were used to funnel natural sea water from one salina to another. Proceeding off the beaten path, where tour buses dare not venture, you will pass right alongside the impressive town salina where you might just catch a glimpse of the famous endangered pink flamingos that are seasonally seen foraging through the silted bottom of the salina ponds in search of brine shrimp and other crustaceans. You will then make your way uphill to breathtaking views of the Atlantic Ocean from atop Breezy Brae, before going to the Lighthouse at the northern end of the island. Your adventure will take you past the North Creek which is the last remaining safe hurricane shelter for yachts travelling between Nassau and Puerto Rico, and where many locals moor their boats year round. From there, you will enter the North Wells by way of a narrow sand track, home to many indigenous wild horses, donkeys and cows in search of fresh water. After leaving the North Wells, you will pass the St. Thomas Anglican Church, the first church built on Grand Turk by Bermudian settlers. You can enjoy grand vistas of Gibb's Cay and the many little uninhabited islands that are visible in the Atlantic from atop Gun Hill before continuing on to Governor's Beach. Relax and enjoy a brief 15-minute dip in the crystal clear waters before commencing the return drive back to your ship.

Please note: Space is limited, so please book early. In order to participate in this excursion guests must be in good physical condition. Minimum age to participate is 6 years old. Please do not forget your sunscreen and sunglasses.

**SNUBA**

You will be met at the Grand Turk pier by your SNUBA instructor and escorted to a transport vehicle. On a ride through historic and quaint Cockburn Town you will learn about this island where it is believed Columbus first made landfall. Arriving at an intimate beach, you are ready to enjoy SNUBA. SNUBA is a way for eight people and a guide to explore the waters to a depth of ten to fifteen feet. That's a magnificent opportunity in this marine universe that is relatively unexplored. SNUBA allows you to breathe with a regulator, and swim freely without a tank on your back (the source of air floats in a small inflatable vessel above you.) It gives you the freedom that snorkeling cannot provide. Once you have arrived at the beach, your instructor will give you a twenty minute safety briefing where you will learn how to use the equipment and hand signals to communicate underwater. Gear donned, you are now ready to head down to shore and embark upon an underwater adventure. Your instructor will guide you, drawing your attention to the fish and the corals they call home.

Please note: The tour does not feature a guide. Space is limited, so please book early. Guests must be in good physical condition and good swimmers in order to participate in this tour. This tour is not recommended for guests who suffer from seasickness and those with mobility problems. Minimum age is 10 years old. Don't forget a swimsuit, towel and sunscreen.
