REGISTRATION

Parents **must sign their children in and out** and provide their **name and cabin number**. For additional information, parents may contact the Kids Club Staff once on board.

PEACE OF MIND

MSC is investing in its Kids' Programs by increasing the ratio of staff to children and establishing new criteria for the hiring of counsellors. This includes the requirement of a college degree in recreation or child care, or the equivalent experience.

New dedicated welcome desks for the handover of security bracelets have been set up . Upon embarkation, children 12 and younger are given a yellow wristband printed with their assigned muster station and is to be worn at all times during the cruise. In the unlikely event of a real emergency while children are involved in Kids' Club Activities, the counselors will immediately guide them to a pre-assigned pick-up area where their parents will be able to meet them and take them to the appropriate muster station.

Pagers and beepers will be available for rent for the parents/supervising adults of children who are three to five years old, children with special medical conditions and children with special needs.

RESTRICTIONS

Children **under the age of 6 are not allowed to use the adult pools** at any time. Between 6 and 12 they can only access adult pools under supervision.

Passengers wearing diapers are not allowed in any pools at any time.

Spa is not permitted for children under the age of 16 years.

Program enhancements have been rolled out across the MSC fleet, with a focus on popular **sporting activities, arts and crafts, theatre** and **technology**. Programmes also feature a broader choice of family events, ranging from parades to scavenger hunts.

Space on board dedicated to the Kids' Club Program has also expanded and kids can now make better use of other areas of the ship, including the disco, the theatre and the sports courts.
